

BIKER-Allianz e.V.

Brotherhood of Bikers, Rockers & Outlaws

Statement on MEHRSi e.V.

The objective of MEHRSi e.V. "security for all Biker" has highest priority. Therefore the BIKER Allianz e.V. becomes the interests of MEHRSi e.V. - armament of Unterfahrschutz type Euskirchen at existing guard rails - support by memberships.

From the press release of the BA

Due to a discussion of 07. June 2004 has itself the BIKER Allianz e.V. decided in the context of security by the new Unterfahrschutz of the type Euskirchen actively of supporting this by memberships. Membership dues are raised and exhausted per member in the name of the member and association appropriate contributions at MEHRSi e.V.

MEHRSi has to reach it production within shortest time (**10 months**) an enormous success to favour of security, both in the number of members (**over 400 !**) and in the practical conversion of the Unterfahrschutzes.

Due to its political neutrality and the goal a purpose of security for Biker to only work, it became possible that even the North-Rhine/Westphalia transport minister Dr. Horstmann took over the patronage for MEHRSi e.V.

The BIKER alliance e.V. is conscious itself that due to their idealism for a minority such as Rocker and Outlaws to begin, not this political public acceptance will win itself you. Nevertheless the BIKER Allianz would like to make e.V., despite its alleged contradictoriness for security, your contribution in addition.

With the contribution increase an active can make like passive member with the BIKER Allianz e.V. a contribution at the same time for more security of using itself and for the Biker scene.

1. President
